

25 YEAR RE-REVIEW

8 July 1954

STAT

Mr. Dulles has asked me to acknowledge and thank you for your letter of 6 April, and to express his regrets for the late date of this reply.

Your letter, your interview with [redacted] and your proposal to Vice President Nixon have all been carefully examined. As you noted in your letter to Mr. Dulles, your proposal does not appear to come within the information gathering function of CIA so much as it appears to come within the policy making functions of other offices and agencies.

STAT

Since your proposal has already been placed before both the Vice President and the State Department, we feel it would be inappropriate for this Agency to take any further action.

Sincerely,

STAT

Assistant to the Director
